The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the period. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the period and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the period is available, upon request, at no extra cost from the Administrator.

Vanguard U.S. Treasury 0–1 Year Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard U.S. Treasury 0–1 Year Bond UCITS ETF seeks to track the performance of the Bloomberg Short Treasury Index, a widely recognised benchmark designed to measure the performance of US dollar-denominated bonds paying a fixed rate of interest issued by the US government.

Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the six months ended 31 December 2024, even as volatility picked up in the second half of the period.
- With inflation generally trending lower, a number of Western central banks turned more accommodative. The European Central Bank had begun to cut short-term interest rates just before the period under review. The Bank of England started doing the same in August, and the US Federal Reserve did so in September.
- Investor sentiment was dented at times by economic reports of slow or stalled progress on curbing inflation and the prospect of fewer US rate cuts than had been anticipated. The macroeconomic backdrop, however, remained supportive of growth, and the global economy continued to expand.
- Global stocks finished the period up 5.67%, as measured by the FTSE Global All Cap Index in US dollars. By region, US stocks outperformed, with the prospect of corporate tax cuts and deregulation under the next administration buoying market sentiment towards year-end.
- Global bonds returned 1.52%, as measured by the Bloomberg Global Aggregate Index in US dollars on an unhedged basis.
- The ETF's benchmark returned 2.65% for the six-month period, outperforming Treasuries as a whole.
- Overall, Treasuries underperformed the broad US investment-grade bond market, which returned 1.98%, as measured by the Bloomberg US Aggregate Float Adjusted Index.

Benchmark returns in the commentary above are in US dollars.

Returns are based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the period. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the period and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the period is available, upon request, at no extra cost from the Administrator.

Vanguard USD Corporate 1–3 Year Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard USD Corporate 1–3 Year Bond UCITS ETF seeks to track the performance of the Bloomberg Global Aggregate Corporate – United States Dollar Index 1–3 Year, a widely recognised benchmark designed to reflect the total universe of publicly traded, fixed-coupon, US dollar-denominated corporate debt securities with maturities of between 1 and 3 years.

Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the six months ended 31 December 2024, even as volatility picked up in the second half of the period.
- With inflation generally trending lower, a number of Western central banks turned more accommodative. The European Central Bank had begun to cut short-term interest rates just before the period under review. The Bank of England started doing the same in August, and the US Federal Reserve did so in September.
- Investor sentiment was dented at times by economic reports of slow or stalled progress on curbing inflation and the prospect of fewer US rate cuts than had been anticipated. The macroeconomic backdrop, however, remained supportive of growth, and the global economy continued to expand.
- Global stocks finished the period up 5.67%, as measured by the FTSE Global All Cap Index in US dollars.
- Global bonds returned 1.52%, as measured by the Bloomberg Global Aggregate Index in US dollars on an unhedged basis.
- Shorter-dated USD corporate bonds outperformed the USD corporate bond market as a whole, which returned 2.71%, as measured by the Bloomberg Global Aggregate Corporate USD Index in US dollars on an unhedged basis.
- The ETF's benchmark index posted a return of 3.38% for the six-month period.
- Although there was not much difference in performance by sector, bonds issued by financial institutions returned a little more than those issued by industrial companies and utilities.
- By credit quality, bonds on the bottom rung of the investment-grade ladder returned more than their higher-rated counterparts.

Benchmark returns in the commentary above are in US dollars.

Returns are based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the period. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the period and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the period is available, upon request, at no extra cost from the Administrator.

Vanguard USD Corporate Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard USD Corporate Bond UCITS ETF seeks to track the performance of the Bloomberg Global Aggregate Corporate – United States Dollar Index, a widely recognised benchmark designed to reflect the total universe of publicly traded, fixed-coupon, US dollar-denominated investment-grade corporate bonds with maturities greater than 1 year and a minimum issue size of \$250 million.

Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the six months ended 31 December 2024, even as volatility picked up in the second half of the period.
- With inflation generally trending lower, a number of Western central banks turned more accommodative. The European Central Bank had begun to cut short-term interest rates just before the period under review. The Bank of England started doing the same in August, and the US Federal Reserve did so in September.
- Investor sentiment was dented at times by economic reports of slow or stalled progress on curbing inflation and the prospect of fewer US rate cuts than had been anticipated. The macroeconomic backdrop, however, remained supportive of growth, and the global economy continued to expand.
- Global stocks finished the period up 5.67%, as measured by the FTSE Global All Cap Index in US dollars.
- Global bonds returned 1.52%, as measured by the Bloomberg Global Aggregate Index in US dollars on an unhedged basis.
- The ETF's benchmark index returned 2.71% for the six-month period.
- By sector, bonds issued by financial institutions and utilities returned more than those issued by industrial companies.
- By credit quality, bonds on the bottom rung of the investment-grade ladder returned more than their higher-rated counterparts. By maturity, shorter-dated bonds performed best.

Benchmark returns in the commentary above are in US dollars.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the period. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the period and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the period is available, upon request, at no extra cost from the Administrator.

Vanguard USD Emerging Markets Government Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard USD Emerging Markets Government Bond UCITS ETF seeks to track the performance of the Bloomberg EM USD Sovereign + Quasi-Sov Index, a widely recognised benchmark designed to reflect the total universe of US dollar-denominated publicly traded debt (with maturities greater than 1 year and a minimum issue size of \$500 million) issued by sovereign and quasi-sovereign emerging-market issuers. Quasi-sovereign issuers include entities that are government-guaranteed and/or government-sponsored, entities that are more than 50% government-owned and local authorities.

Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the six months ended 31 December 2024, even as volatility picked up in the second half of the period.
- With inflation generally trending lower, a number of Western central banks turned more accommodative. The European Central Bank had begun to cut short-term interest rates just before the period under review. The Bank of England started doing the same in August, and the US Federal Reserve did so in September.
- Investor sentiment was dented at times by economic reports of slow or stalled progress on curbing inflation and the prospect of fewer US rate cuts than had been anticipated. The macroeconomic backdrop, however, remained supportive of growth, and the global economy continued to expand.
- Global bonds finished the period higher despite headwinds in October and December. In this environment, the ETF's benchmark returned 4.55% for the six-month period.
- Most countries in the index posted positive returns. Among those with higher weightings, Argentina had the highest return (about 48%). A few other countries also had impressive gains but, because of their small weightings in the index, had marginal impact on the overall return.
- Bonds in the 10- to 15-year maturity range had the highest returns (on average almost 17%), while those at the longest end (30-plus years) had modest declines. The majority of the index's bonds had maturities of 10 years or less, and they collectively returned a bit over 4%.
- It was also a mixed picture by credit quality. Those with lower credit ratings (but not the lowest) generally had the highest returns, but the vast majority of the index's weighting was in higher-quality bonds.

Benchmark returns in the commentary above are in US dollars.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the period. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the period and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the period is available, upon request, at no extra cost from the Administrator.

Vanguard USD Treasury Bond UCITS ETF

Managed by Vanguard Global Advisers, LLC.

Investment Objective

Vanguard USD Treasury Bond UCITS ETF seeks to track the performance of the Bloomberg Global Aggregate U.S. Treasury Float Adjusted Index, a widely recognised benchmark designed to reflect the total universe of publicly traded, fixed-coupon, US dollar-denominated US Treasury securities with maturities greater than 1 year and a minimum issue size of \$300 million.

Performance Summary

The Performance Summary does not form part of the Financial Statements.

- Global financial markets posted gains for the six months ended 31 December 2024, even as volatility picked up in the second half of the period.
- With inflation generally trending lower, a number of Western central banks turned more accommodative. The European Central Bank had begun to cut short-term interest rates just before the period under review. The Bank of England started doing the same in August and the US Federal Reserve did so in September.
- Investor sentiment was dented at times by economic reports of slow or stalled progress on curbing inflation and the prospect of fewer US rate cuts than had been anticipated. The macroeconomic backdrop, however, remained supportive of growth and the global economy continued to expand.
- Global stocks finished the period up 5.67%, as measured by the FTSE Global All Cap Index in US dollars. By region, US stocks outperformed, with the prospect of corporate tax cuts and deregulation under the next administration buoying market sentiment towards year-end.
- Global bonds returned 1.52%, as measured by the Bloomberg Global Aggregate Index in US dollars on an unhedged basis.
- The ETF's benchmark returned 1.45% for the six months. That was less than the broad US investment-grade bond market, which returned 1.98%, as measured by the Bloomberg US Aggregate Float Adjusted Index.
- Treasuries with maturities of less than 5 years gained more than 2.5%, while those maturing in 20 to 30 years fell by more than 2%.

Benchmark returns in the commentary above are in US dollars.

Returns are based on NAV with income reinvested.

All of the returns in this report represent past performance, which is not a guarantee of future results that may be achieved by the fund. For performance data current to the most recent month-end, which may be higher or lower than that cited, visit our website at <https://global.vanguard.com>. Note, too, that both investment returns and principal value can fluctuate widely, so an investor's shares, when sold, could be worth more or less than their original cost.

* The tracking difference between the fund return and the index return over a stated period of time can be attributed to a number of factors, including, without limitation, small differences in weightings, trading activity, transaction costs and differences in the valuation and withholding tax treatment between the fund and the index vendor.

The Central Bank of Ireland requires a schedule of material changes in the composition of the portfolio during the period. These are defined as aggregate purchases of a security exceeding 1% of the total value of purchases for the period and aggregate disposals greater than 1% of the total value of sales. At a minimum, the largest 20 purchases and 20 sales must be shown; all purchases and sales must be shown if there are fewer than 20. A full listing of the portfolio changes for the period is available, upon request, at no extra cost from the Administrator.

Notes to the Financial Statements

1. General Information.

Vanguard Funds plc, an open-ended investment company with variable capital, was incorporated in Ireland as a public limited company on 24 May 2011. The Company is authorised by the Central Bank of Ireland (the "Central Bank") as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) and the Central Bank (Regulations and Enforcement Act 2013 (section 48(1)) (undertakings for Collective Investment in Transferable Securities) Regulations, 2019.

The Company issues shares as "ETF Shares" that are intended to be actively traded on a secondary market. Vanguard LifeStrategy 20% Equity UCITS ETF, Vanguard LifeStrategy 40% Equity UCITS ETF, Vanguard LifeStrategy 60% Equity UCITS ETF and Vanguard LifeStrategy 80% Equity UCITS ETF ("Asset Allocation Funds") primarily invest in underlying collective investment schemes. To achieve the targeted allocation of assets of their investment objectives, the Asset Allocation Funds substantially invest in other Funds of the Company.

The Company is organised as an umbrella fund with segregated liabilities between funds. During the period ended 31 December 2024 the Company had 34 constituent funds, 5 closed funds and 4 that has not yet commenced trading (each a "Fund", collectively the "Funds").

2. Basis of Presentation.

The financial statements are prepared in accordance with accounting standards generally accepted in Ireland, including FRS 104, the Financial Reporting Standard applicable in the UK and the Republic of Ireland issued by the Financial Reporting Council (the "FRC"), the UCITS Regulations and the CBI UCITS Regulations.

To more appropriately reflect the Company's business as an investment fund, the Company has determined that the headings and sub-headings of the financial statements require adaptation from the requirements in the Companies Act 2014 and certain wordings and format of the financial statements have been adapted from those contained in FRS 102, Section 3.

Cash Flow Statements have not been presented due to the exemption contained in FRS 102, Section 7.1A.

The information required by FRS 102 to be included in a statement of comprehensive income is contained in the Statement of Operations of each Fund and the Company.

The financial statements have been prepared on a going concern basis, subject to the historical cost convention, as modified by the revaluation of financial assets and liabilities at fair value through profit or loss ("FVTPL").

Cross Investments. The Asset Allocation Funds invest in other Funds of the Company, which are disclosed in each Fund's Statement of Investments. These cross investments and any related movements in realised or unrealised gains and losses on these investments have been eliminated in the Company financial statements (30 June 2024: same).

3. Significant Accounting Policies.

The unaudited financial statements should be read in conjunction with the relevant Fund's annual audited financial statements for the year ended 30 June 2024. There have been no changes to the significant accounting policies adopted by the Funds since the last audited period, and the accounting policies have been consistently applied to all periods presented, unless otherwise stated.

4. Risk Management Policies.

The Funds' activities, investments in financial instruments and the markets it invests in create a direct exposure to a variety of risks such as market risk (including price risk, interest rate risk and currency risk), liquidity risk and credit risk. The Funds may also invest in financial derivative instruments which may expose the Funds to a higher degree of risks, particularly, financial derivative instruments contracts can be highly volatile, and a relatively small market movement may have a potentially larger impact. The Funds may also make investments in other underlying funds. The financial instruments which constitute these other underlying funds generally expose the Funds to indirect risks resulting from other price risk, currency risk, interest rate risk, liquidity risk and credit risk.

Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism or other events, can adversely affect local and global markets and normal market operations. Any such disruptions could have an adverse impact on the value of the Funds' investments and Funds' performance.

The Manager seeks to minimise potential adverse effects of risk on the Funds' performance by employing professional, experienced portfolio managers; by daily monitoring of the Funds' positions and market events; by diversifying the investment portfolio within the constraints of the investment objectives; and by periodically using derivatives to economically hedge certain risk exposures.

Each Fund's financial risk management objectives and policies continue to be substantially consistent with the previous Annual Audited Financial Statements for the financial year ended 30 June 2024.

5. Taxation.

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares. Any tax arising on a chargeable event is a liability of the shareholders, albeit it is paid by the Company (although if the Company fails to deduct the correct amount of tax it becomes ultimately a liability of the Company).

No Irish tax will arise on the Company in respect of chargeable events:

- (a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations;
- (b) certain exempted Irish tax resident shareholders who have provided the necessary signed statutory declarations; and
- (c) any transaction in relation to, or in respect of, units which are held in a recognised clearing system as designated by order of the Irish Revenue Commissioners.

Dividends, interest and capital gains received on investments may be subject to withholding or other taxes imposed by the country from which the investment income/gains are received, and such taxes may not be recoverable. Foreign withholding taxes on dividends and interest are recognised when such taxes are not recoverable and are included in Taxation. Funds may also be subject to tax on realised and unrealised capital gains and has recognized a provision for deferred tax payable arising from material timing differences between the taxation of unrealized gains in the financial statements and actual realisable taxable profits.

The Funds have filed tax reclaims for previously withheld taxes on dividends earned in certain European Union countries. These filings are subject to various administrative and judicial proceedings within these countries. Such tax reclaims recognised during the period, if any, are included in Taxation. No other amounts for these tax reclaims are reflected in the financial statements due to the uncertainty as to the ultimate resolution of proceedings, the likelihood of receipt of these reclaims and the potential timing of payment.

6. Distribution Policy.

The Directors intend to distribute all, or substantially all, of the net income (interest and dividends, less expenses) to distributing share class holders. Should expenses exceed income, no distribution is made. Dividend distributions are payable to shareholders of record on the date on which the dividend is declared. Dividends on Asset Allocation funds, if any, are paid semi-annually. The Directors do not intend to declare dividends on accumulating shares.

The following table presents the payment frequency with respect to distributing share classes. If a dividend has not been declared, income and gains of such Fund will be reflected in the net asset value per share.

The Manager did not declare a dividend in respect of participating units in the U.S. Treasury 0–1 Year Bond UCITS ETF for the period ended 31 December 2024 (31 December 2023: Nil). Accordingly, income and gains of the Fund will be reflected in the net asset value per share.

7. Net Asset Value Per Share.

The net asset value per share of each share class is calculated by dividing the total net assets of each share class by the number of shares in issue.

8. Share Capital.

The Company has variable share capital consisting of 5,000,000,000,002 authorised shares divided into two Subscriber Shares (US\$1.00 par value) and 5,000,000,000,000 redeemable participating shares (no par value).

The Directors may issue shares of any class and create new classes of shares on such terms as the Directors may from time to time determine in relation to any Fund and in accordance with the requirements of the Central Bank. Shares may be divided into different classes to accommodate different subscription, redemption or fee arrangements, dividend provisions, or charges.

Subscriber Shares. There are two Subscriber Shares in issue, which are held by nominees for the Investment Manager. Subscriber Shares do not entitle the holders thereof to any dividend and on a winding-up entitle the holder to receive the amount paid up thereon but not otherwise to participate in the assets of the Company. The Subscriber Shares do not form part of the Shareholders' funds and are not included in the net asset value of the Company.

Redeemable Participating Shares. Members who are individuals may attend and vote at general meetings in person or by proxy. Members who are corporations may attend and vote at general meetings by appointing a representative or proxy. Subject to any special terms as to voting upon which any shares may be issued or may for the time being be held, at any general meeting on a show of hands every shareholder who (being an individual) is present in person or (being a corporation) is present by duly authorised representative shall have one vote. On a poll every such holder presents as aforesaid or by proxy shall have one vote for every share held.

If the Company shall be wound up, then the payment to the holders of the redeemable participating shares of each class, is a sum in the currency in which that class is designated, as nearly as possible equal to the Net Assets Attributable to Holders of Redeemable Participating Shares respectively. This payment is as at the date of commencement to wind up provided that there are sufficient assets available in the relevant Fund to enable such payment to be made. In the event that there are insufficient assets available in the relevant Fund to enable such payments to be made, the following recourse shall apply:

- (1) the assets of the Company not comprised within any of the Funds; and
- (2) the assets remaining in the Funds for the other classes of Shares after payment to the holders of the Shares of the class to which they relate of the amounts to which they are respectively entitled under this paragraph prorata to the total value of such assets remaining within each such Fund.

9. Credit Facility.

The Funds and certain other funds managed by the Manager and its affiliates participate in an annually renewable US\$4.3 billion (2023: US\$4.3 billion) committed credit facility. Each participating Fund is individually liable for its borrowings under the credit facility. Borrowings may be utilised for temporary or emergency purposes and are subject to the participating Fund's regulatory and contractual borrowing restrictions. Participating Funds are allocated an annual commitment fee of 0.10% of the undrawn facility amount as well as certain administrative fees. Any fees allocated to the Funds are paid by the Manager. Interest and direct borrowing costs associated with draws on the credit facility are charged to the Funds and recorded in the Statement of Operations.

The rate charged for borrowings under this facility is linked to the currency borrowed. Borrowings in US dollars will bear interest at an agreed-upon spread plus the higher of the federal funds effective rate, the overnight bank funding rate or the Daily Simple Secured Overnight Financing Rate inclusive of an additional agreed-upon spread. Borrowings in currencies other than the US dollar will bear interest at an agreed-upon spread plus the Euro Interbank Offered Rate, the Daily Simple Euro Short Term Rate, the Swiss Average Rate Overnight, the Sterling Overnight Index Average or the Tokyo Interbank Offered Rate, as applicable.

The Funds had no borrowings outstanding at 31 December 2024 or at any time during the period then ended (30 June 2024: none).

10. Efficient Portfolio Management.

Investment techniques and financial derivative instruments (FDIs) may be employed for efficient portfolio management purposes, including hedging against market movements, currency exchange or interest rate risks. Any investment technique or use of FDIs must be one which is reasonably believed by the Investment Manager to be economically appropriate in that it is realised in a cost-effective way. Realised and unrealised gains or losses arising from financial derivative instrument transactions are accounted for through the Statement of Operations as Net Gain/(Loss) on Financial Instruments.

Securities lending is also used for efficient portfolio management. The securities lending agent is Brown Brothers Harriman & Co. The Depositary is a wholly owned subsidiary of Brown Brothers Harriman & Co. All operational costs in support of the lending programme are borne by the lending agent and paid directly out of any lending agent fees. Securities lending income is net of any lending agent fees paid.

Securities on loan continue to be recognised by the Funds as financial assets because they substantially retain the risks and rewards of ownership. Similarly, security collateral received from the borrower is not recognised by the Funds as an asset because they do not have rights to sell or re-pledge the collateral, unless in the event of default. Collateral accepted by the Funds is limited to high quality sovereign debt (U.S. Treasuries, U.K. Gilts, etc.).

11. Collateral.

The Funds pledge and receive non-cash collateral against financial derivative instruments and TBA transactions. Such collateral cannot be sold, re-invested or re-pledged. As a result, pledged collateral remains an asset of the Fund and is included in the Statement of Investments. Securities received as collateral are not considered assets of the Fund and will not appear in the Statement of Investments. Under these collateral agreements, upon a counterparty default (including bankruptcy), the Funds may terminate all derivatives or TBA transactions with that counterparty, determine the net amount owed by either party and sell or retain any collateral held up to the net amount owed to the Funds, with an obligation to return excess collateral to the counterparty.

In certain cases, the Funds may be required to maintain cash collateral in margin accounts or pledge cash with certain counterparties. Cash collateral held in margin accounts for futures contracts and other centrally cleared derivatives is segregated on the Statement of Assets and Liabilities and presented separately as part of "Margin Cash Due to/from Broker". Cash pledged for OTC derivative instruments and TBAs is segregated on the Statement of Assets and Liabilities and presented separately as "Cash Collateral". Additionally, the Funds may receive cash collateral, which is segregated from the Funds' cash, and is subject to restrictions. The Funds do not earn any interest from the cash collateral received nor does it have any right for re-investment, therefore any cash collateral received is not recorded as part of the Funds' assets.

At 31 December 2024, the Funds did not have any collateral pledged or received in connection with TBA transactions (30 June 2024: Nil).

In addition, the Funds receive other non-cash collateral in relation to securities lending transactions which is separately disclosed in Note 10.

Counterparties to financial derivative transactions where collateral was required to be exchanged included Bank of America N.A., Bank of New York Mellon, Barclays Bank plc, BNP Paribas, Citibank NA, Deutsche Bank AG, HSBC Bank, JPMorgan Chase Bank, Royal Bank of Canada, Standard Chartered Bank, State Street Bank, Toronto Dominion Bank and UBS AG.

As of 31 December 2024 and 30 June 2024, the collateral pledged or received by the Funds for financial derivative instrument transactions was:

12. Related and Connected Parties Transactions.

Parties are related if one can control or exercise significant influence over the other in making financial or operational decisions or is a member of a group which provides key management personnel services. The Company's directors and Manager are considered related parties. The Investment Manager or affiliates of the Manager, as well as any sub-investment manager or their delegate, and associated or group company of the Manager, are considered connected parties.

Manager. Vanguard Group (Ireland) Limited is the Funds' Manager and acts as a principal in respect of all transactions of shares in the Funds. For its services, the Manager receives a fixed single fee per share class (the "Management Fees") calculated on a daily basis and paid monthly. Out of the fees received, the Manager pays for any sub-advisers, as well as the costs of administration including audit, depository, legal, registration and regulatory fees associated with the Funds. As a result, the Manager anticipates that the

ongoing charges figure ("OCF") of each share class will closely track the Management Fees. In the event that the costs and expenses of any Fund exceed the OCF, the Manager will be responsible for discharging any excess out of its own assets. The Manager, in its sole discretion, may voluntarily waive all or part of its fee, and any such waiver could be discontinued at any time and without notice.

The Asset Allocation Funds invest in other Funds of the Company, and substantially all of the income from these collective investment schemes are derived from related party holdings. Each Asset Allocation Fund separately includes within this report a complete set of financial statements which details its holdings in related parties, significant portfolio changes, revenues and net gains or losses from these investments in related parties. Additionally with respect to the Asset Allocation Funds, the Manager will reduce its Management Fees in an amount equal to similar charges already incurred in the underlying affiliated collective investment schemes.

Any amounts due from or to the Manager at the end of the period are disclosed in the Statement of Assets and Liabilities. Amounts earned by the Manager in respect to fees for the period are disclosed in the Statement of Operations.

The Annual Management Fees for each share class for the period ended:

15. Contingent Liabilities.

There were no contingent liabilities as at 31 December 2024 and 30 June 2024.

16. Segregated Liabilities.

Each Fund is treated as bearing its own liabilities.

17. Fair Value Hierarchy.

Financial instruments are measured at fair value using a three-level hierarchy. Instruments are categorised in their entirety based on the lowest level input that is significant to the fair value measurement. Assessing the significance and observability of a particular input requires significant judgement specific to an asset or liability. Inputs are considered to be observable when they are readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Level 1—Quoted prices in active markets for identical securities.

Level 2—Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3—Significant unobservable inputs (including the Fund's own assumptions used to determine the fair value of investments).

The following tables provide an analysis within the fair value hierarchy of financial assets and liabilities, measured at fair value at 31 December 2024 and 30 June 2024:

18. Operating Segments.

Operating segments are the components of the Company whose results are regularly reviewed by the Company's chief operating decision maker ("CODM") when determining resources to be allocated and assessing performance. The Company's board of directors is the CODM. The board sets the investment objective and evaluates the performance, funding model and market and geographic focus of the Company's Funds individually. As returns are linked to unique investment objectives, each Fund is considered a reportable segment and separately includes within this report a complete set of financial statements which details its segment assets, liabilities, revenues and expenses.

The Asset Allocation Funds invest in other Funds of the Company, which are disclosed in each Fund's Statement of Investments. These cross investments and any related movements in realised or unrealised gains and losses on these investments have been eliminated in the Company financial statements.

Reconciliation of reportable segments to the Company total as at 31 December 2024:

Additional Information and Regulatory Disclosures

Synthetic Ongoing Charges Figure

The Ongoing Charges Figure (OCF) is the ratio of a Fund's total disclosable costs (excluding overdraft interest) to the average net assets of the Fund. Because the Asset Allocation Funds invest a substantial proportion of assets in other UCITS or Collective Investment Undertakings (CIU), the Asset Allocation Funds are required to disclose a synthetic OCF that accounts for the ongoing charges incurred in the underlying CIUs.

Connected Persons Transactions

Transactions carried out with the Company by the Investment Manager, Manager, Depositary, Investment Adviser and/or associated or group companies of these ("Connected Persons") during the period ended 31 December 2024 were carried out as if negotiated at arm's length and were in the best interests of the Company's Shareholders. The Directors of the Company are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that all transactions entered into by the Company with Connected Persons are carried out as if negotiated at arm's length and in the best interests of the Company's Shareholders.

Securities Financing Transactions Regulation

Securities Financing Transaction Regulation ("SFTR") introduces reporting requirements for securities financing transactions ("SFTs") and total return swaps.

An SFT is defined as per Article 3(11) of the SFTR as:

- A repurchase/reverse repurchase agreement,
- Securities or commodities lending and securities or commodities borrowing,
- A buy-sell back transaction or sell-buy back transaction, or
- A margin lending transaction.

As at 31 December 2024, the Company had a securities lending programme and total return swaps as types of SFTs under the scope of the SFTR.

For total return swaps, returns are identified as the realised gains/losses and change in unrealised gains/losses on the swap contract during the reporting period which are included as part of the Net Gain/Loss on Financial Instruments in the Statement of Operations. Cost pertains to transaction costs related to entering into the swap contract. For these investments, the cost is not separately identifiable and is part of the investment performance.

Additional Information for Investors in the Federal Republic of Germany

Deutsche Bank AG, Taunusanlage 12, 60325 Frankfurt am Main, Federal Republic of Germany, has undertaken the function of Paying and Information Agent for the Company in the Federal Republic of Germany (the "German Paying and Information Agent").

Applications for the redemptions and conversion of shares may be sent to the German Paying and Information Agent.

All payments to investors, including redemption proceeds and potential distributions, may, upon request, be paid through the German Paying and Information Agent.

Issue, redemption and conversion prices of the share classes of each of the seeded funds will be published under <https://www.ie.vanguard/products>. Notices to Shareholders will be sent by personalised letter to the shareholders.

Additional Information for Investors in Italy

Vanguard Group Ireland Limited (VGIL), as UCITS management company to the Company, has engaged a third-party service provider to identify companies involved in the production of controversial weapons detailed in Italian "Law 220", as outlined in its Controversial Weapons Policy (the "Policy").

VGIL has such Policy in place to control the investment in said instruments for Irish domiciled funds under its management which are distributed in Italy, including the relevant sub-funds of the Company.

The Policy applies to direct investment in equity and fixed income securities (together "Securities") made by the relevant investment manager on behalf of the sub-funds of the Company. The Policy does not apply to any actively managed sub-funds of the Fund that are sub-advised by a sub-investment manager that does not form part of the Vanguard Group and will not apply to indirect investments such as derivatives or collateral.
